Anti-Doping policies, like R&A Rules of Golf the Alps Tour Members General Regulations Handbook and Tournament Rules Card, provide a framework of conditions under which professional golf should be played and the Alps Tour therefore wishes to introduce the following policy:

- a) It is a condition of membership and entry for both members and non-members to all events organised by or held under the auspices of the Alps Tour that Players voluntary accept the application to them of this policy and submit to testing.
- b) For all events held under the auspices of Alps Tour, the Alps Tour will utilise the Testing procedures of the National Anti-Doping Organisation (NADO) of the country in which the event takes place.
- c) Prohibited List – The current updated List of Prohibited Substances is available from the WADA website (www.wada-ama.org/en/) and also from the members' area of the Alps Tour website. The Alps Tour's anti-doping policy applies the full WADA prohibited list.
- d) Therapeutic Use Exemptions (TUE) and Abbreviated Therapeutic Use Exemptions (ATUE) – may be granted in accordance with the principles of International Standard for TUE available from each respective Federation.

- e) Before participating in a Alps Tour tournament, an application for a TUE must be submitted to the respective NADO by no later than closing date for entries for the relevant tournament.
- f) Applications for a TUE or ATUE must be submitted to the respective NADO prior to further play for any emergency medical treatments involving medication from the List of Prohibited Substances.

Penalties – The Alps Tour will extend the penalty given by the federation to the member who has violated the anti-doping rules to the Alps Tour events.

It would be impossible to define exactly the standard of conduct expected from Alps Tour Members in all circumstances or to list all acts which would amount to a breach of the Code and lead to disciplinary sanctions. In most cases common sense should tell the Member the standard of behavior that is required. Any member who has any doubt as to the conduct which is expected of him should contact the Office for advice.

He will inform the Member that a procedure has been started against him. The written notice is a summons and is sent by registered mail with acknowledgement of receipt at least fifteen days before the sitting of the Committee.

The notice includes the grievances set forth, details the list of penalties extending from the plain warning up to the expulsion. It informs the Member of the possibility of being helped or represented by a person that he may choose and also that he may present his remarks written or oral to the Committee.

The Ethics Committee deliberation is valid only if the decisions are taken with the majority of the members attending and if three of its members at least are sitting. Its decisions must be motivated and are binding.

APPENDIX A – Groove Regulations

New R&A Rules on Club Face Markings Groove Regulations

As you will be aware, the R&A are introducing some new rules on club face markings from January 2010 which will augment the current regulations on grooves.

The changes will specifically regulate the radius of the groove edge (for sharpness) and the volume of the groove – two factors which it is believed have a significant effect on the ability to control the ball from the rough. The revised rules will significantly increase the spin differential between shots from the fairway and shots from the rough.

Although the Major Tours approved the introduction of the new regulations in 2011, **the Alps Tour will not apply this new Rule for the 2011 season and till the 2013 season included**, as follows recommendations from the R&A:

Date	Change	Effecting...
1 Jan 2010	New specifications introduced on club face markings.	All new models of clubs launched after 1 January 2010. Existing models of clubs will continue to conform to the Rules of Golf.
1 Jan 2010	Condition of Competition will be available to Committees requiring players to use clubs with markings which conform to the new specifications.	Strongly recommended that this Condition should be introduced only on the major Professional Tours. All other golfers, playing in competitions where this condition has not been introduced, can and should be permitted to continue to use old model clubs which do not satisfy the new specifications.
1 Jan 2014	Condition of Competition will continue to be available to Committees.	Strongly recommended that this Condition should be extended only to lower level Professional events and elite level amateur events. Club level golfers can and should be permitted to continue to use old model clubs, which do not satisfy the new specifications.
1 Jan 2024	Earliest date that the Rules will be applied to clubs manufactured prior to 2010. This date will be reviewed in 2020 and may be extended.	All players, all abilities, all forms of play.

WARNING!

If you are going to play on European Tour or Challenge Tour events this year, the rule applies. All clubs that you use in competition must conform at the time to the new specifications. It is therefore very important that you make arrangements with your manufacturer to begin testing and updating your equipment as necessary.
